Comments: Richard Finley RPH (pharmacist in charge) has discipline and answered no on the questionnaire. WV requires \$10 fee be mailed to W.V BOP 232 Capitol St Charleston WV 25301 in order to obtain info on the discipline. Faxed orders are at 30% they fill out of state prescriptions, verified with google maps that KY border is about 20 minutes and Ohio is about 7 minutes. Dr Davis Caraway had a malpractice case that was dismissed. Loss date 8/1997 action date 9/2001. The BOM site does state no disciplinary cases on file. The center for pain relief does not appear to have a valid license. Terminated license in packet, I also put the state corporation report in packet. It appeared to be terminated as well. Dr Ahmet Ozturk has malpractice cases that resulted in no discipline, added to packet does not indicate what the malpractice is. CHH Pain management does not come up in BOM database Amhet Ozturk is the medical director there. Included web page in packet. Discipline for Richard Finley has to do with a pharmacy tech taking new prescriptions over the phone prior to Richard purchasing the pharmacy from a family member, the practice as since been corrected.

NO DISCIPLINARY CASES ON FILE.

Malpractice Records for AHMET HUSAMETTIN OZTURK

Consumers should take the following factors into consideration when evaluating a physician's competence from malpractice data.

- A number of studies have been conducted to identify indicators of substandard care among physicians. There is no conclusive evidence that malpractice data correlates with professional competence.
- There are a variety of factors unrelated to professional competence or conduct which affect the likelihood that a physician will be the subject of a malpractice claim, such as, the physician's time in practice, the nature of the specialty, the types of patients treated, geographic location, etc. For example, certain medical specialties have a higher rate of malpractice claims because of a higher risk

inherent to the field of practice.

- Settlements of malpractice cases by insurance companies are sometimes handled as business decisions. In the case of some minor claims, it is less expensive for the insurance company to make a monetary settlement than it is for them to take the case to court. Many times such cases are settled without a finding of fault or admission of guilt on the part of the physician.
- A payment in settlement of a medical malpractice action or claim should not be construed as creating a presumption that medical malpractice has occurred.

HUNTINGTON, WEST VIRGINIA

HUNTINGTON AREA DEVELOPMENT COUNCIL - HADCO

Community Profile

Community Profile: [Demographics and Labor Force](#) | [Business and Industry](#) | [Community Data](#) | [New Investments](#) | [Higher Education](#) | [Healthcare](#) | [Top Employers](#) | [Area Maps](#)

Healthcare

With eight hospitals, a medical school, the largest private physician practice in West Virginia, and an array of highly specialized services, Tri-State residents enjoy an unparalleled level of quality healthcare in a rural environment.

Cabell Huntington Hospital

(<http://cabellhuntington.org>) is a regional, 303-bed referral center in Huntington, WV. Opened in 1956, it is also a teaching hospital and is affiliated with Marshall University Schools of Medicine and Nursing. Thanks to its quality medical facilities, advanced equipment, and a highly skilled interdisciplinary team, Cabell Huntington is a leader in many special care services.

The Neonatal Intensive Care Unit is one of only three Level III units in the state of West Virginia. Recently increased to 36 beds and one isolation area, the NICU encompasses emergency, critical, diagnostic and therapeutic care for premature and critically ill newborns.

The Burn Intensive Care Unit is the only unit of its kind in West Virginia, with the closest similar units in Pittsburgh, Cincinnati and Columbus, Ohio.

The Pediatric Intensive Care Unit, one of only three in West Virginia, is a ten-bed unit designed to meet the critical care special needs of seriously ill children from infancy to age 16. It has four beds with step-down capabilities and a new state-of-the-art computer monitoring system.

Cabell Huntington Hospital offered the first specialized pediatric transport services in West Virginia, and transports an average of 370 critically ill or injured infants and children each year.

Cabell Huntington has become a leader in emergency treatment with the country's first Level II joint trauma center. Located just minutes away from I-64, it is easily reached by ambulance and helicopter transport services. The recently renovated emergency department includes 30 exam and five trauma rooms.

The Edwards Comprehensive Cancer Center

(<http://edwardsccc.org>) was established through a strong partnership with the Marshall University Joan C. Edwards School of Medicine. It offers patients access to experienced and respected physicians, radiologists and surgeons, a skilled and caring nursing staff and the most current protocols for cancer diagnosis, treatment and care. Patients have access to a full range of diagnosis and treatment services, including

surgery, radiation, chemotherapy, laboratory testing, clinical trials and support services.

Marshall University's Joan C. Edwards School of Medicine

(<http://musom.marshall.edu>) is a state-supported, community-based medical school established in 1977. It is committed to providing high quality medical education and residency training in rural health primary care specialties, with research also focused on rural health issues, and has consistently been honored through the Family Practice Percentage Awards program of the American Academy of Family Physicians.

St. Mary's Medical Center

(<http://www.st-marys.org>) is the largest medical facility in the Tri-State region of WV, OH and KY, and is the area's recognized leader in comprehensive cardiac care. Board-certified cardiologists specialize in both invasive and non-invasive procedures, and board-certified cardiothoracic surgeons perform more than 500 open heart surgeries annually. St. Mary's Regional Heart Institute offers open heart surgery, with three open heart surgical suites, and a specialized open heart recovery unit.

For over 40 years, St. Mary's Regional Cancer Center has been on the front lines of the battle with cancer. St. Mary's provides a full range of radiation, medical and surgical oncology services, and is designated as a Comprehensive Community Cancer Center by the American College of Surgeons. It is the only cancer center in Huntington that qualifies to be a member of the Association of Community Cancer Centers. St. Mary's Radiation Oncology Department is accredited by the American College of Radiation Oncology (ACRO). ACRO strives to ensure the highest quality care for radiation therapy patients and promote success in the practice of radiation oncology through education, responsible socio-economic advocacy, and integration of science and technology into clinical practice.

The majority of neurosurgical procedures in Huntington are performed at St. Mary's Medical Center. A specialized neuroscience unit has been designated for adult neurology and neurosurgery patients, including stroke patients. The Neuroscience Specialty Unit (NSU) is a four-bed intermediate care unit. Patients in this unit include those with acute neurological or neurosurgical problems requiring frequent monitoring. Some common diagnoses include post-operative neurosurgery, strokes, intra-cerebral hemorrhages, cerebral aneurysms and seizures.

St. Mary's CyberKnife® Center offers new hope, with fewer treatments, to patients with lesions diagnosed as inoperable and untreatable. The CyberKnife® Center gives patients the benefit of no incision, blood, pain or anesthesia.

Other area healthcare facilities include, but are not limited to:

Marshall University Physicians & Surgeons

(<http://musom.marshall.edu/medctr/>) is the faculty practice business corporation of Marshall University's Joan C. Edwards School of Medicine. The 170 physicians provide primary, secondary, and tertiary care services in the community, including Psychiatry & Behavioral Medicine, Internal Medicine, Geriatrics, Family Medicine, Surgery, Oral & Maxillofacial Surgery, Pediatrics, Obstetrics & Gynecology, and operate eight satellite offices in Cabell & Wayne Counties. MUP&S has been ranked as one of West

Virginia's top 100 private employers since 2002, and provides more than 50 percent of the medical school's \$100 million annual operating budget.

Huntington Ear, Nose, Throat Specialists (<http://www.entdocsonline.com/>)

provides comprehensive specialized care in general ear, nose and throat, deafness, balance disorders, sinus diseases, allergy, snoring, head and neck surgery, audiology, and hearing aid services. Office locations include Huntington and Hurricane, WV and Ashland, KY.

Valley Health Systems, Inc. (<http://www.valleyhealth.org/>) is an integrated network of primary healthcare centers and public health programs that provide comprehensive medical services in West Virginia and southern Ohio. Started in 1975, Valley Health medical experts now offer services such as family practice, internal medicine, pediatrics and adolescent care, OB/GYN, dentistry, laboratory, pharmacy, x-ray, and ultrasound through 28 health centers and public specialty programs.

Huntington Internal Medicine Group is the largest multi-specialty group practice in West Virginia with over 60 physicians, physician assistants and nurse practitioners in primary care, medical sub-specialties, and general surgery.

Veteran's Administration Medical Center (<http://www.huntington.va.gov>) in Huntington serves veterans from the Tri-State area of WV, OH, and KY. Health services include same-day surgery, spinal cord injury, women's health, mental health clinic, pharmacy, returning veteran's transition, and comprehensive social work resources.

River Park Hospital offers a wide range of mental health services for children, adolescent, adult, and geriatric populations in inpatient, outpatient, and residential settings. Intensive programs use a variety of integrated treatment options to address behavioral, emotional and addictive disorders.

Mildred Mitchell-Bateman Hospital is a 110-bed state supported psychiatric hospital. It is a training hospital for future health care professionals from the Tri-State area of WV, OH, and KY, providing on-site learning experiences for educating physicians, nurses, psychologists, counselors, health care administrators, technicians and support staff.

HealthSouth Rehabilitation Hospital of Huntington is a 52-bed acute care inpatient rehabilitation hospital serving the Tri-state area for over 15 years. Programs include Amputee, Arthritis, Brain Injury, Burns, General Rehabilitation, Hip Fracture, Joint Replacement, Multiple Trauma, Neuro-rehabilitation, Orthopedics, Spinal Cord Injury, and Stroke.

King's Daughters Medical Center (KDMC) is a 385-bed regional referral center, covering a 150-mile radius of the Tri-State region of KY, OH, and WV. KDMC offers comprehensive cardiac, medical, surgical, pediatric, rehabilitative, psychiatric, cancer, neurological, pain care, wound care and home care services in one convenient location. KDMC is honored to be named one of the nation's 100 Top Hospitals by Solucient®, the leading source of healthcare information products, for three consecutive years.

Our Lady of Bellefonte Hospital, serving the Tri-State region of KY, OH, and WV, is a 214-bed acute care hospital affiliated with the Catholic-based Bon Secours Health System Inc. Primary care and specialty services are also provided at five clinic locations.

Assisted living, long term care, hospice and in-home services are also available throughout Cabell and Wayne Counties, WV, and the Tri-State region. More information on these can be found at <http://www.wvcaregivers.org/map/cabell.html>.

Principles and Uses of Radiofrequency Nerve Lesioning in Chronic Pain Control

Last updated: 09/29/2008

[Printer friendly](#)**Author: Ahmet H. Ozturk, MD****Medical Director, CHH Pain Management Clinic**

In the management of chronic pain, the value of permanent nerve blocks has long been recognized. To this end, several surgical and nonsurgical methods have been devised. Surgical techniques are usually more involved and serve as a last resort. Surgical transection of peripheral nerves may cause neuroma formation and deafferentation pain. After surgical lesioning of sympathetic nerves, symptoms may recur and surgical re-exploration may be difficult or impossible. Such considerations lead to a search for nonsurgical nerve destruction techniques. Three methods of nerve destruction are generally accepted:

- Injection of neurolytic substances, such as absolute alcohol, phenol or glycerin, are done under X-ray and are suitable for the destruction of larger units like celiac plexus. The size of the lesion is difficult to predict, and the spread of neurolytic substance may cause unwanted side effects that will also be permanent.
- Cryoanalgesia (freezing of a peripheral nerve) is more accurate but has the disadvantage of being short term, usually three to six months.
- Radiofrequency (RF) lesioning is a more refined technique based on the thermocoagulation of selected nerves using an electrode capable of accurate temperature generation.

The advantages of radio frequency lesioning

- Lesion size can be accurately controlled, allowing lesioning of small nerves without damaging nearby motor and other sensory nerves.
- Recovery is rapid and usually uneventful, allowing the patient to return to work or normal daily activity more quickly.
- The nerve lesion is usually long-lasting. An accurately done lesion may give pain relief for years.
- Nerve lesion heals without neuroma formation.
- The rate of side effects and complications is low.
- When pain recurs, nerve lesion can be repeated as necessary.

Contraindications and limitations

- Pain control with nerve lesioning is a palliative measure and, therefore, should not

Related Newsbreaks

- Precision System for Chronic Pain

Related News Articles

- Specialist in Pain Management joins Cabell Huntington Hospital Medical Staff.

be considered in place of corrective surgical treatment.

- Patients with significant psychological problems, such as those with secondary pain and drug dependency, are not suitable candidates for any type of intervention, especially neurodestructive pain control procedures. Such patients are likely to continue with pain behavior and complaints of pain even if the procedure was successful.
- Before the procedure, the patient must have realistic expectations and must understand that the aim is to reduce the pain, not stop it completely.
- Before neurodestructive procedures, diagnostic blocks should give good pain relief. The same diagnostic block should be repeated at least once more, even if the pain relief from the first block was excellent, to decrease the chance of placebo effect. If the result is not clear, differential blocks should be used.
- Patients with pain complaints at multiple locations or with wide distribution of pain usually respond poorly to RF procedures.
- The patient must realize that single target lesioning may not be sufficient, necessitating complementary blocks for better pain relief.
- Lesioning of mixed nerves is avoided because it may cause deafferentation of the skin and muscular weakness.
- Deafferentation pain may be aggravated by further destruction of the affected nerve. When pain is of central origin (spinal or higher), destruction of the peripheral nerve may cause increased pain perception by eliminating incoming stimuli. A better alternative in such cases is neuroaugmentation with TENS or a spinal cord stimulator.

Patient selection

- All etiologic treatments, including surgery, have been tried and have failed.
- All palliative nondestructive conservative treatment, including temporary nerve blocks, steroids and physical therapy, have been tried and have failed.
- Patient factors are important; the patient should be free of significant psychological problems and drug dependency, be motivated and have realistic expectations.
- The patient should respond favorably to repeated diagnostic trial blocks.

Indications

Facet joint pain:

Pain originating from facet joints is a common component of low back and neck pain. This mechanical aspect of back pain is usually not amenable to surgical intervention and is difficult to manage conservatively. Epidural cortisone injections may be used, but provide limited pain relief and are of short duration. RF lesioning of the medial branch of posterior primary ramus effectively denervates the facet joint and provides long-term, good-quality pain relief in selected patients. Facet rhizotomy has a success rate of 60-70 percent. Considering that little can be done for patients with chronic low back and/or neck pain other than medications and physical therapy, this success rate is quite acceptable. A successful RF facet rhizotomy usually gives pain relief for more than a year.

Discogenic pain:

Pain originating from intervertebral discs is another common source of low back and neck pain. Surgery is rarely indicated if the disc is not herniated and impinging on the nerve root. A disc appearing normal or only bulging in radiological studies may be a significant source of pain due to internal derangement. Annulus fibrosis is densely innervated by the sinuvertebral nerve and by the gray rami communicans. After identifying the painful disc with provocative discogram and pain suppression tests, RF lesioning may be used to

partially denervate the disc either by lesioning of the rami communicans or by intradiscal denervation techniques. RF disc denervation is contraindicated if there is disc herniation with nerve impingement, multiple level disc disease, advanced degenerative disc disease and negative provocative discogram.

Coccygodynia and rectalgia:

Pain at the tailbone due to organic causes may be alleviated by RF lesioning of the coccygeal nerve and/or ganglion impar. Trial blocks are always done at least twice to confirm that the condition is organic in etiology.

Sympathetically mediated pain:

Pain that is transmitted via sympathetic nerves may be interrupted by lesioning of the sympathetic chain at the spinal level or at the stellate ganglion. Sympathetic denervation is also valuable for control of ischemic pain due to peripheral vascular insufficiency, both by decreasing pain and increasing blood flow.

Ganglionotomy:

Partial rhizotomy of dorsal root ganglion may provide pain relief for nociceptive radicular pain, as an alternative to spinal cord stimulation when surgery is not indicated or feasible.

Other uses of RF lesioning include treatment of trigeminal neuralgia by thermocoagulation of Gasserian ganglion, lesioning sphenopalatine ganglion and stereotactic cordotomy in cancer patients.

VENDOR AGREEMENT

This Vendor Agreement (the "Agreement") is made by and between Cardinal Health 411, Inc. and Cardinal Health 110, Inc. ("Cardinal Health") and Budget Pharmacy ("Buyer"), who hereby agree as follows:

SECTION I – General Purchase Information

1. Buyer's Monthly Volume: \$150,000 - \$250,000
2. Buyer's Generic Sales per Month: Approx. \$26,000 or 13% of Total Rx purchases
3. Buyer's Rx Cost of Goods: ~~2.70% Weekly~~ 2.50% Semi-monthly ✓ *ok*
4. Description of Initial payment terms: ~~Weekly 7-5 DSO~~ Semi-17-50 DSO ✓
5. Additional Information: 180 Day Returns Policy (See exhibit A)

SECTION II – Generics

1. In General. Each of Buyer's pharmacy locations shall purchase its generic pharmaceutical product requirements through the Cardinal Health Generic Source generic pharmaceutical product program (the "Generic Source Program"), and Buyer hereby acknowledges and agrees that Cardinal Health shall implement an automatic substitution program for all applicable Generic Source Program products.

2. Monthly Generic Rebate. Subject to the limitations set forth below, Cardinal Health shall pay Buyer a monthly rebate (the "Monthly Generic Rebate") based on Buyer's Net Purchases of generic Rx Products through the Generic Source Program during the applicable calendar month. The Monthly Generic Rebate shall be calculated by Cardinal Health for each full calendar month this Agreement is in effect and shall be provided by Cardinal Health to Buyer, if applicable, within thirty (30) days after the end of the applicable month in the form of a credit memorandum to be used by Buyer towards future purchases of Merchandise under this Agreement. The amount of a given Monthly Generic Rebate shall be determined in accordance with the following table:

Monthly Net Purchases Through the Generic Source Program			Monthly Generic Rebate Rate % of Buyer's Monthly Net Purchases through the Generic Source Program
\$0	-	\$4,999	7.00%
\$5,000	-	\$9,999	8.00%
\$10,000	-	\$14,999	10.00%
\$15,000	-	\$24,999	12.00%
\$25,000	-	\$34,999	16.00%
\$35,000	-	\$49,999	18.00%
\$50,000	-	\$74,999	20.00%
\$75,000	-	\$99,999	21.00%
\$100,000	-	\$149,999	22.00%
\$150,000	-	Above	23.00%

In calculating a given Monthly Generic Rebate, the percentages set forth in the rebate tiers above shall be cumulative. For example, the portion of a Monthly Generic Rebate for the first \$4,999 purchased through the Generic Source Program during the applicable month shall equal 7.00% (or \$350), and the portion of a Monthly Generic Rebate for those purchases through the Generic Source Program from \$5,000 through \$9,999 shall equal 8.00% (or \$400). Therefore, if the Buyer's Monthly Net Purchases through the Generic Source Program equaled \$9,999 during a given month, the Monthly Generic Rebate would equal \$750.

3. Limitations. Notwithstanding the foregoing, Buyer shall be entitled to a Monthly Generic Rebate only if: (i) no amounts (which are not legitimately disputed) remain unpaid to Cardinal Health and Buyer is otherwise current in its payment terms hereunder, and (ii) Buyer has otherwise been in full compliance with the terms of this Agreement, including, without limitation, its payment terms, at all times during the relevant month (not taking into account Buyer's cure of any noncompliance).

4. **Disclosure.** The Monthly Generic Rebate constitutes a "discount or other reduction in price," as such terms are defined under the Medicare/Medicaid Anti-Kickback Statute, on the products purchased by Buyer under this Agreement. Cardinal Health and Buyer agree to use their best commercially reasonable efforts to comply with any and all requirements imposed on sellers and buyers, respectively, under 42 U.S.C. § 1320a-7b(3)(A) and the "safe harbor" regulations regarding discounts or other reductions in price set forth in 42 C.F.R. § 1001.952(h). In this regard, Buyer may have an obligation to accurately report, under any state or federal program which provides cost or charge based reimbursement for the products or services covered by this Agreement, or as otherwise requested or required by any governmental agency, the net cost actually paid by Buyer.

SECTION III – Terms, Conditions and Disclosures

1. The initial term of this Agreement shall commence on May 18th, 2010, (the "Effective Date") and shall continue in effect thereafter through May 18th, 2013.

2. Either party may effect an early termination of this Agreement upon the occurrence of a material breach by the other party. The non-breaching party must give written notice to the breaching party of the nature and occurrence of such breach. If the breach is not cured by the expiration of sixty (60) days from the date of such notice, or if the breaching party has not made reasonable efforts to effect the cure if the breach cannot reasonably be cured within such sixty (60) day period, then the non-breaching party may provide written notice to the breaching party that this Agreement will be terminated in thirty (30) days following the expiration of such sixty (60) day period.

3. Buyer will designate Cardinal Health as your primary wholesale pharmaceutical supplier to all the pharmacy locations owned, managed or operated by Buyer during the term of this Agreement (collectively, the "Pharmacies" and individually, a "Pharmacy"), and Buyer will purchase from Cardinal Health all of the pharmaceuticals (the "Rx Products") required for each Pharmacy (the "Primary Requirements") if they are carried by Cardinal Health. In addition, Buyer may, at its option, purchase certain other inventory carried by Cardinal Health (the "Non-Rx Products") (Rx Products and Non-Rx Products are collectively referred to as the "Merchandise"). Notwithstanding any other provision in this Agreement, Cardinal Health reserves the absolute right to determine what Merchandise it will carry. *Buyer must provide accurate six (6) months' usage figures (including NDC numbers) for all items for each Pharmacy in compatible electronic (disk) format at least forty-five (45) days prior to participation under this Agreement by that Pharmacy.* In addition, Buyer will provide usage information related to new and/or replacement items on an ongoing basis, as necessary. As used in this Agreement, the term "Net Purchases" will mean all purchases made and paid for by Buyer and/or the Pharmacies under the terms of this Agreement, net of all returns, credits, late charges, or other similar items, on an annual, quarterly, or monthly basis, as applicable.

4. Buyer will pay a service charge calculated at the rate of 1.5% per month (or the maximum rate allowed by law, if such rate is less than 1.5% per month) on any amount not paid by Buyer to Cardinal Health when due under the terms of this Agreement ~~from the first day of delinquency until such amount is paid in full~~ along with reasonable attorney fees associated with any such delinquency. Failure or delay by Cardinal Health to bill Buyer for any such service charge will not waive Cardinal Health's right to receive the same. Cardinal Health retains the right to adjust Buyer's payment terms, place Buyer on C.O.D. status, modify Buyer's cost of goods, limit or terminate the extension of credit and/or refuse orders from Buyer if Cardinal Health has not received payment when due for Merchandise delivered to Buyer under this Agreement or services provided to Buyer under this Agreement, or based upon credit considerations deemed relevant by Cardinal Health. Until Merchandise is paid for in full, Cardinal Health retains, and the Buyer hereby grants Cardinal Health, a security interest in the Merchandise. ~~In the event of default in payments on any invoice, Cardinal Health shall have the right to declare all invoices immediately due and payable.~~ *define as default*

5. Notwithstanding any other provision in this Agreement, the purchase price for certain Merchandise, including, but not limited to, the following items, will not be based upon Cardinal Health's Cost-plus pricing described above: multisource pharmaceuticals, private label products, medical/surgical supplies, home health care/durable medical equipment, Schedule II controlled substances, drop-shipped Merchandise, Merchandise acquired from vendors not offering customary cash discount or other terms, other slow moving or specially-handled Merchandise, and non-pharmaceutical Merchandise. Except as otherwise set forth in this Agreement, Buyer may, but will have no obligation to, purchase any specified volume or percentage of its requirements of these items.

6. Cardinal Health will recognize and administer mutually agreed upon manufacturer pricing contracts between Buyer and any manufacturer (collectively, "Manufacturer Contracts"): (i) subject to their continued validity in accordance with applicable laws, (ii) provided such manufacturer is a vendor in good standing with Cardinal Health and (iii) subject to such credit considerations concerning the applicable manufacturers as Cardinal Health may consider appropriate. However, if manufacturers' chargebacks for contract items submitted by Cardinal Health are disallowed, uncollectable, or unreconcilable, then the applicable charge will be billed back to Buyer. Buyer will notify Cardinal Health of all applicable pricing information included in the Manufacturer Contracts, including renewals, replacements or terminations of Manufacturer Contracts not less than forty-five (45) days prior to the effective date of such Manufacturer Contract, renewal, replacement or termination.

7. All Merchandise shall be shipped FOB destination; provided, however, Cardinal Health reserves the right to assess service charges on deliveries. Buyer's obligation to pay for Product begins on the date of shipment. No Schedule II orders will be delivered other than in compliance with DEA regulations. Notwithstanding any other provision in this Agreement, Buyer shall pay a fuel surcharge, on a per stop basis, for each delivery made to Buyer or by Cardinal Health under this Agreement (the "Fuel Surcharge"). Each Fuel Surcharge shall be set forth on the invoice from Cardinal Health, and the amount of a given Fuel Surcharge shall be calculated in accordance with the following table:

Regular Unleaded Fuel Price is: at Least	But Less Than	Additional Surcharge Amount
\$4.76	\$5.00	\$3.25 per stop
\$4.51	\$4.75	\$3.00 per stop
\$4.26	\$4.50	\$2.75 per stop
\$4.01	\$4.25	\$2.50 per stop

The fuel prices set forth in the table above represent the national average retail cost per gallon for regular grade gasoline as published by the U.S. Department of Energy (the "Average Price Per Gallon"). The current index may be obtained on the Energy Information Administration's website at the following address:

http://www.eia.doc.gov/oil_gas/petroleum/data_publications/wrpp/mogas_home_page.html

In the event that the Average Price Per Gallon exceeds Five Dollars (\$5.00), the Fuel Surcharge shall increase in Twenty Five Cent (\$0.25) increments for each Twenty Five Cent (\$0.25) increase in the Average Price Per Gallon.

8. In general, Cardinal Health will accept Merchandise for return from Buyer in accordance with the Standard Cardinal Health Returned Goods Policy as is in effect from time to time. Buyer must notify Cardinal Health ~~within 45 days of receipt~~ of any discrepancies or shortages on the order. If Buyer does not notify Cardinal Health in a timely manner, Buyer may not receive credit for any such discrepancies or shortages. Finally, as set forth in the Standard Cardinal Health Returned Goods Policy, returns made greater than thirteen (13) months from the invoice date will not be accepted, no credit will be issued for such returns, and the product will be returned to customer.

9. All purchases under this Agreement will be for Buyer's "own use" as that term is defined in judicial or legislative interpretation and not for resale to anyone other than the end user. Cardinal Health may terminate this Agreement immediately in the event it reasonably determines that Buyer is in breach of this paragraph.

10. Buyer represents, warrants and certifies to Cardinal Health that it and each of Buyer's pharmacy locations has all required governmental licenses, permits and approvals required to purchase, use and/or store the Rx Products purchased from Cardinal Health under this Agreement. Prior to purchasing Rx Products from Cardinal Health hereunder, and at all times during the term of this Agreement, Buyer will provide Cardinal Health with copies of all such licenses and any renewals, revocations, changes or notices related thereto.

11. All Applicable taxes, including Federal Excise Tax, will be collected as part of the sale.

12. Without limiting Cardinal Health's rights under law or in equity, Cardinal Health and its affiliates, parent or related entities, collectively or individually, may exercise a right of set-off against any and all amounts due Buyer. For purposes of this Section, Cardinal Health, its affiliates, parent or related entities shall be deemed to be a single creditor.

13. THERE ARE NO EXPRESSED OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE. CARDINAL HEALTH SHALL NOT BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, SPECIAL OR PUNITIVE DAMAGES.

14. If and to the extent any discount, credit, rebate or other purchase incentive is paid or applied by Cardinal Health with respect to the Merchandise purchased under this Agreement, such discount, credit, rebate or other purchase incentive shall constitute a "discount or other reduction in price," as such terms are defined under the Medicare/Medicaid Anti-Kickback Statute (42 U.S.C. § 1320a-7(b)(3)(A)) and the "safe harbor" regulations regarding discounts or other reductions in price set forth in 42 C.F.R. § 1001.952(h)), on the Merchandise purchased by Buyer under the terms of this Agreement. Buyer may have an obligation to accurately report, under any state or federal program which provides cost or charge based reimbursement for the products or services covered by this Agreement, or as otherwise requested or required by any governmental agency, the net cost actually paid by Buyer.

15. Buyer, intending to be legally bound, agrees to all the terms and conditions of this Agreement. This Agreement, together with all invoices, purchase orders, and the exhibits and addenda thereto constitute the entire agreement and understanding of the parties with respect to the subject matter hereof and supersede all prior written and oral agreements, proposals, bids/bid responses, and understandings between the parties relative to the subject matter hereof. No changes to this Agreement or any purchase orders will be made or be binding upon either party unless made in writing and signed by each party. By signing this Agreement, Cardinal Health and Buyer each represent that it has the authority to bind its respective party to this Agreement.

SECTION IV- Additional Discounts and Rebates

1. *One-Time Discount.* Upon full execution of this Agreement, you will be eligible to receive a one-time discount on your purchases from us in an amount equal to Twenty-Five Thousand Dollars (\$25,000) (the "One-Time Discount"). The One-Time Discount will be paid in the form of a credit memo within sixty (60) days after full execution of this Agreement. If this Agreement is terminated prior to the end of the term, you must repay to us, within sixty (60) days of the date of termination, a pro rata portion (based on the number of months remaining in the term of the Agreement) of the One-Time Discount paid to you hereunder. The parties agree, and you acknowledge, that such payment by you has been negotiated in good faith and is not intended as a penalty.

**Cardinal Health Returned Goods Authorization
Ongoing Assurance**

The undersigned customer ("**Customer**") of one or more of the Cardinal Health companies identified below ("**Wholesaler**," whether one or more) hereby agrees that this document is being delivered to confirm Customer's compliance with applicable federal, state, and local laws / guidelines concerning returned goods and shall apply to all returns by Customer to Wholesaler from time to time and shall supersede any inconsistent provisions which may be contained in any credit request, purchase order, or other documents pertaining to the supply relationship between Customer and Wholesaler.

1. Customer represents, warrants, and guarantees to Wholesaler that:
 - a. Each such return shall be made only to the specific Wholesaler from which the item was originally purchased;
 - b. Each such return shall be accompanied by Wholesaler's credit request form (the "**Return Form**"), which shall specify both Customer's and Wholesaler's name and address, the date of the return, the quantity and description of the product returned, and such other information as may reasonably be requested on Wholesaler's Return Form;
 - c. Customer shall retain a copy of each Return Form and related credit memo and make such documentation available to the manufacturer and to authorized federal, state, and local law enforcement officers upon request;
 - d. The credit claimed or accepted by Customer for any such return shall not exceed the original purchase price paid to Wholesaler; and
 - e. All merchandise returned to Wholesaler has been stored and handled by Customer in accordance with all applicable federal, state, and local laws, manufacturer guidelines when disclosed to customer by the manufacturer or wholesaler, and good trade practices, and such merchandise has not been adulterated or misbranded by customer within the meaning of the Federal Food, Drug, and Cosmetic Act and meets all FDA, state, and other applicable requirements and guidelines.
2. Customer shall indemnify and defend Wholesaler against and from any expense, claim, liability, or penalty (including reasonable legal fees) arising from any failure of Customer to properly comply with the provisions specified in this document.
3. *The term "Cardinal Health" means the following pharmaceutical distribution companies: Cardinal Health 106, Inc. (formerly known as James W. Daly, Inc.), a Massachusetts corporation (Peabody, Massachusetts); Cardinal Health 103, Inc. (formerly known as Cardinal Southeast, Inc.), a Mississippi corporation (Madison, Mississippi); Cardinal Health 110, Inc. (formerly known as Whitmire Distribution Corporation), a Delaware corporation (Folsom, California) and any other subsidiary of Cardinal Health, Inc., an Ohio corporation ("CHI"), as may be designated by CHI.

EXHIBIT A

**Cardinal Health Pharmaceutical Distribution
Returned Goods Policy**

Products in "merchantable condition" (as defined below) and originally purchased from Cardinal Health may generally be returned to the customer's servicing Cardinal Health distribution center in accordance with, and subject to, the terms and conditions of this policy.

Return Made Within:

Normal Credit Amount:

1 - 180 Days from Invoice Date

100% of original invoice amount paid by customer. This policy covers all order shortages, filling errors and damage if reported within two (2) business days and such products are returned within ten (10) business days of the date of the applicable invoice.

180 Days - 13 Months from Invoice Date

90% of original invoice amount paid by customer. Provided, however, if applicable mark-up is greater than 0%, credit will be based on customer's contract cost or Cardinal Health's then-current base cost, as applicable.

Returns made greater than 13 months from the invoice date will not be accepted. No credit will be issued, and the product will be returned to customer.

"**Merchantable condition**" will be determined by Cardinal Health based upon its ability to return the product to its inventory for resale in the normal course of its business, without special preparation, testing, handling, or expense and will **exclude** the following:

- A. Any product purchased from any supplier other than Cardinal Health.
- B. Any product which has been used or opened; is a partial dispensing unit or unit of sale; is without all original packaging, labeling, inserts, or operating manuals; or that is stickered, marked, damaged, defaced, or otherwise cannot readily be resold by Cardinal Health for any reason.
- C. Short-dated (less than seven (7) months expiration dating), outdated, or seasonal products and products purchased on a "special order" basis, including non-stock and drop-shipped products.
- D. Any product not intended for return to a wholesaler in accordance with the return policies of the applicable manufacturer.
- E. Any product listed by any state or federal regulatory agency as a high-risk pedigree item that is returned without a valid invoice number that cannot otherwise be verified by Cardinal Health.

Unmerchantable Products

Any product not eligible for return in accordance with this policy (i.e., the product is not in "merchantable condition" as set forth above) will require return directly to the manufacturer. If any such products are returned to Cardinal Health, they will be returned to customer and no credit will be issued. Stickered products will be handled as follows: Cardinal Health will remove the sticker, retain the product and credit the customer (as applicable pursuant to this policy). If the product is damaged during the removal of the sticker, no credit will be issued to customer and the product will be returned to customer.

Notwithstanding the foregoing, in any case where Cardinal Health accepts the return of such products and agrees to return such products to the applicable manufacturer on behalf of customer (provided the manufacturer allows the return of such products), any credit issued to customer will be determined by Cardinal Health.

Required Return Documentation

Prior to returning any product to Cardinal Health, customer must execute and deliver to Cardinal Health a **Cardinal Health Returned Goods Authorization Ongoing Assurance** verifying that all returned products have been kept under proper conditions for storage, handling, and shipping.

All requests for credit must be submitted via EOE, Cardinal.com, CardinalCHOICE®, or approved EDI interface.

A fully completed and signed **Merchandise Return Authorization Form** (the "MRA Form") must accompany all products to be returned. **Note:** An MRA Form cannot be fully completed without a valid invoice number. The request for an MRA Form will be rejected if a valid invoice number is not provided.

Third Party Return Processors

At the request of customer, Cardinal Health will work with third party return processors for returns of unmerchtable products. Such arrangement will be subject to mutually agreed upon terms and conditions, to include administrative fees payable to Cardinal Health.

Controlled Substances

Credit for the return of controlled substances requires a separate MRA Form and such returns must comply with all applicable laws, rules and regulations in addition to the terms and conditions of this policy.

Refrigerated, Chemotherapy and Hazardous Products

Refrigerated, chemotherapy and hazardous products must be returned in packaging that complies with applicable regulatory requirements. All such products that are not returned in packaging that complies with applicable regulatory requirements will be considered damaged and unsaleable. This product will be destroyed and no credit will be issued to customer.

Shorts and Damaged Products

Claims of order shortages (e.g., products invoiced but not received), filling errors and damage must be reported within two (2) business days from the applicable invoice date, or no credit will be issued. Returns of damaged products or products shipped in error must be received by the Cardinal Health servicing distribution center within ten (10) business days from the applicable invoice date, or no credit will be issued. Controlled substance shortage claims must be reported immediately per DEA requirements. In all instances, credit will not be issued until verification of the claim by Cardinal Health.

No deductions may be taken by customer until a valid credit memo is issued by Cardinal Health.

Shipping of Return Products

Products to be returned must be placed in a proper shipping container and signed for by the driver when picked up.

Signed MRA Forms shall be included in totes with the returned products. Only one (1) MRA Form shall be included in each tote.

- If the MRA Form is not signed, no credit will be issued, and the products will be returned to the customer.
- If the MRA Form is not inside the tote with the returned products, Cardinal Health will attempt to identify the customer that returned the products. The tote will then be returned to the customer with a request for a completed MRA Form(s).
- No credit will be issued for products returned but not listed on the accompanying MRA Form. Such products will be returned to the customer.

All MRA Forms will be reviewed by Cardinal Health for compliance with this policy. The acceptability and valuation of any return is at the sole discretion of Cardinal Health.

Products must be returned to the customer's servicing Cardinal Health distribution center within thirty (30) days from the date of customer's request for an MRA Form, or no credit will be issued.

In addition to the requirements set forth in this policy, Customer shall comply with all return procedures required by the Cardinal Health servicing distribution center.

Other Restrictions

Excessive returns may result in higher restocking fees as deemed necessary by Cardinal Health.

This policy is subject to change without notice by Cardinal Health. This policy is further subject to modification as may be deemed necessary or appropriate by Cardinal Health to comply with applicable federal and/or state regulations, FDA guidelines, state law, and other restrictions applicable to returned products.
